Subject: REVIEW: Draft FRN, cover letter, and rollout plan for OR

All--

As promised, please see attached for tech team review. You're comments are appreciated before we provide to mngt/legal team (once they are done reviewing the RtC and Decision Document):

1. Draft FRN: updated based on Dec. version
2. Draft cover letter to state informing them of our decision
3. Draft rollout plan: updated based on Dec. version. Please confirm the key players and their contact info for your agency are still accurate. You'll note that I added a few new Q&As in anticipation of some questions we may receive based on questions we heard during the December proposed release or common comments received. The new Q&As or substantially modified ones are highlighted in pink to help focus your review.

As an FYI, I also included a draft "Three Things" briefing memo NOAA uses for our leadership. It's a very set format and length (3 pg. max). Feel free to steal language, as appropriate, for any EPA briefing documents you may need to develop.

Thanks,
Allison
